

FIBERPRO® CFP

Carpet and Fabric Protector

Extend the life of your carpet and maintain appearance levels longer with FiberPro® CFP. The most durable form of carpet and fabric protector, this product provides the highest level of protection from both water-based and oil-based spills as well as dry soils. It forms an invisible barrier on the carpet or fabric to prevent spills from being absorbed into the fibers. When applied, it seals each individual fiber, not the air spaces in between, giving the carpet extra protection. Routine maintenance is faster because dry soils are held in suspension for easier removal by vacuum. The wicking action of the product assures uniform protection and increases the carpet's ability to resist and release soil and stains.

Uses

- Recommended for use on carpets, rugs and upholstery to protect them from water, oil and dry soils.

Benefits

- Repels dry soils and both oil and water-based spills.
- Soil, stains, and grit easily vacuum out, eliminating the grinding motion between soil and fiber which can wear out carpets.
- Extends the time between shampooing, eliminating unnecessary expense.
- Dirt and stain build-up is eliminated. Carpets retain their natural texture and appearance.
- Water-based.

Properties

Color	White opaque
Coverage	1800 square feet/gallon
Flammability	Nonflammable
Fragrance	Characteristic
pH	4.0 - 6.0
VOCs	None
Shelf Life	1 year

Directions For Use

Read the entire label before using this product.

Test in an inconspicuous area before application. Avoid over wetting the surface. CARPET: Apply protector solution to previously cleaned carpet. Vacuum first and then deep clean the carpet with restorative maintenance procedures. Dilute 16 oz./gal. or 125 mL/L (1:8) for wet carpet and apply at a rate of 200 sq. ft./gal. or 18.6 sq. meters/3,785 mL. Dilute 8 oz./gal. or 63 mL/L (1:16) for dry carpet and apply at a rate of 100 sq. ft./gal. or 9.3 meters/3,785 mL. Let dry 4 - 6 hours before allowing foot traffic. FABRIC: Apply protector solution to previously cleaned fabric or upholstery. Dilute 8 oz./gal. or 63 mL/L (1:16) and apply until surface is moist. Do not over wet the material. Work solution into the material for uniform coverage and protection.

Safety

CAUTION: May cause eye irritation. If it is necessary to walk on carpet before it is completely dry, be careful because shoe heels and soles may be slippery. FIRST AID: If splashed on skin or in eyes, flush with large quantities of water. If swallowed, dilute with two glasses of water. Call a physician.

Available In

- Case/12 Quarts (946 mL): #41012-00
- Case/ 4 - 1 Gallon (3.78 L): #41004-00
- Pail/5 Gallon (18.9 L): #41005-00
- Drum/55 Gallon (208 L): #41055-00
