

CIDE-BET

Hospital Disinfectant • Foaming Germicidal Cleaner

This easy-to-use foaming germicidal detergent clings, cleans, disinfects and deodorizes in one quick operation. A Hospital disinfectant, this product kills a broad range of microorganisms including staph, salmonella and pseudomonas. Virucidal against HIV-1 (AIDS Virus) and Herpes Simplex 1 & 2. Effective fungicidal activity against Trichophyton mentagrophytes (Athletes Foot Fungus). Mildewstat. Powerful detergent action quickly removes a wide variety of soils. This product destroys odors at their source leaving a fresh and clean fragrance behind.

Uses

- Bathroom tiles
- Bathtubs
- Hospitals
- Nursing homes
- Shower stalls
- Sinks
- Restroom fixtures
- Walls

Benefits

- Dispenses a clinging foam even if the can is held upside down.
- Disinfects hard surfaces as it cleans.
- Kills HIV-1 (AIDS) on precleaned environmental surfaces/objects previously soiled with blood/body fluids.
- Kills Herpes Simplex 1 and 2.
- **Residual self-sanitizing activity controls germs on treated surfaces for up to 5 days after use.
- Deodorizes and eliminates all malodors at their source, including odor causing bacteria.
- No CFCs. Federal regulations prohibit the use of CFCs in aerosol formulations.
- No harsh abrasives or acids.

Properties

Abrasives	None
Appearance.....	White, foaming
Flammability	Nonflammable per CPSC
Fragrance.....	Citrus Bouquet
Net weight.....	18 ounces
pH.....	12.0 - 13.0
Rinsability	Complete
Shelf life	1 year
Spray pattern	Wide, fine foam
Storage stability	120° F maximum
ACTIVE INGREDIENTS:	
n-Alkyl (C ₁₂ 60%, C ₁₆ 30%, C ₁₂ 5%, C ₁₈ 5%)	
dimethyl benzyl ammonium chlorides	0.1%
n-Alkyl (C ₁₂ 68%, C ₁₄ 32%) dimethyl ethylbenzyl	
ammonium chlorides.....	0.1%

Safety

WARNING: Causes eye and skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. **FIRST AID: IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless instructed to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF ON SKIN OR ON CLOTHING:** Take off contaminated clothing. Rinse skin with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for further treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **PHYSICAL OR CHEMICAL HAZARDS** Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting.

Directions For Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. When used as directed, this germicidal cleaner demonstrates effective disinfection against Staphylococcus aureus, Salmonella choleraesuis, and Pseudomonas aeruginosa, thus meeting requirements for hospital use. Efficacy tests have demonstrated that this germicidal cleaner is an effective one-step cleaner disinfectant in the presence of organic soil (5% blood serum). This product is fungicidal against Trichophyton mentagrophytes (agents causes Athletes Foot Fungus) when used as directed on hard nonporous surfaces found in bathrooms, showers, locker rooms, or hard, non porous surfaces commonly contacted by barefeet. **MOLD AND MILDEWSTAT:** This product prevents and controls mold and mildew and the odors they cause on hard, nonporous, inanimate surfaces. This germicidal cleaner has been designed specifically for institutional cleaning and disinfecting in nursing homes, hospitals and institutions. **DISINFECTION, DEODORIZATION, AND CLEANING:** This product is not intended for use in toilet bowls. To disinfect hard, nonporous surfaces (such as bathroom tiles, walls, shower stalls, sinks and bathtubs), proceed as indicated below:

- Preclean all surfaces before disinfection.
 - Shake can before using.
 - Hold 6 - 8" from surface to be treated.
 - Spray area until it is covered with white foam. Allow foam to penetrate and remain wet for 10 minutes. No scrubbing necessary.
 - Wipe off with clean cloth, mop, or sponge or allow to air dry.
- KILLS HIV-1 ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings (Hospitals, Nursing Homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS). **SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (AIDS virus) OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.** **PERSONAL PROTECTION:** When handling items soiled with blood or body fluids use disposable latex gloves, gowns, masks or eye coverings. **CLEANING PROCEDURES:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of disinfectant. **CONTACT TIME:** Allow surface to remain wet for 10 minutes. **DISPOSAL OF INFECTIOUS MATERIALS:** Blood and other body fluids should be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal. **MILDEWSTAT:** To control mold and mildew on precleaned, hard, nonporous surfaces (such as floors, walls, table tops), spray the surfaces to be treated, making sure to wet completely. Let air dry. Repeat application at weekly intervals or when mildew growth reappears. **VIRUCIDAL PERFORMANCE:** This product was evaluated and found to be effective against Herpes Simplex Type 1 (virus that causes cold sores) and Herpes Simplex Type 2 (virus that causes genital herpes) on precleaned, hard, nonporous, inanimate environmental surfaces for a contact time of 10 minutes. ****RESIDUAL SELF-SANITIZING ACTIVITY:** This product has been evaluated and found to have residual self-sanitizing activity in 5 minutes on precleaned, hard, nonporous, inanimate environmental surfaces. This residual sanitizing activity is applicable to surfaces that are reasonably expected to become wet under normal conditions such as shower and restroom fixtures. This residual self-sanitizing activity will continue for 5 days or until the surface is rinsed or cleaned.

Acceptance
