

Particle recovery and filtration has never been more critical. Sweeping and dry dusting can distribute virus droplets into the air helping to spread the virus.

Best practices include vacuuming to capture particles and reduce this risk and using a certified HEPA filter to help contain them

HEPA NVR 170H

Equipped with an advanced, 3-stage certified HEPA filtration system, the NVR 170H delivers a Clean Air solution for the commercial environment.

Why Buy NVR 170 HEPA?

Advanced HEPA Filtration

Equipped with an advanced, 3-stage filtration system, including a certified HEPA Filter that last the lifetime of the motor, secondary TriTex Filter and HepaFlo Filter Bags.

The NVR 170H supports best cleaning practices and delivers a Clean Air solution for the commercial environment.

What Goes in, Stays in

HepaFlo Bags with innovative self-seal tab lock all the dust in the bag, reducing the risk of distributing particles or droplets back into the air when emptying.

Long Lasting & Quiet Operation

A 2,200-hour motor provides excellent soil recovery and operates at only 47 dB(A) that won't disturb occupants and is backed by a 5-year warranty.

Great Features for the Toughest Cleaning

A professional, powerful and versatile workhorse, packed full of innovative features for the toughest cleaning. Includes tough bumper for wall and door protection, large rear wheels for ease of transit, and professional toolkit.

Compact and Convenient

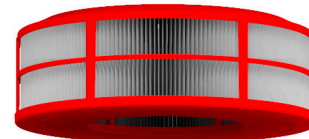

Equipped with a long cleaning reach, convenient cord rewind system, and on-board tool storage, the NVR170H is ready when you need it, and stores neatly away when not in use.

A Tool for Every Job

Easily switch between carpets and hard-floors with the high-performance Combi Floor Tool. Tackle hard-to-reach areas with the precision cleaning kit, including Dusting Tool, Crevice Tool and Brush & Mattress Tool.
