

PULL®

Disinfectant Toilet Bowl • Urinal Cleaner

This disinfectant toilet bowl cleaner is a pure white, stable emulsion, containing 23% hydrogen chloride. Carefully formulated with added detergents, it will quickly remove even the most stubborn rust, scale and mineral deposits from toilet bowls and urinals. Ideal for hard water areas. Special inhibitors protect plumbing, and the advanced 4th-generation biocide system incorporated in this product effectively eliminates bacteria, even in the presence of 5% blood serum. This product will clean, disinfect and deodorize with one simple application. Achieve proper restroom sanitation by using this powerful combination of quaternary ammonium compounds, detergents and inhibited hydrochloric acid.

Uses

- For inside of toilet bowls and urinals only.

Benefits

- Disinfects – Using the latest technology in chained quats, this product has shown broad spectrum activity against microorganisms commonly found in toilet bowls and urinals. Evaluated in the presence of 5% blood serum using the AOAC Use-Dilution Test, this bowl cleaner was found to be effective against:
 - AIDS (HIV-1) • Pseudomonas Aeruginosa
 - Staphylococcus Aureus • Salmonella Choleraesuis
- Deodorizes – Eliminates odors at their source for a cleaner, fresher environment.
- Cleans – This special blend of detergents and acid removes even the most unsightly and stubborn rust, scale and mineral deposits.

Properties

Acid content	23.0% minimum HCL
Color	Milky white emulsion
Detergency	Excellent
Flash point	None
Fragrance	Acidic
pH	Less than 1.0
Rust removal	Excellent
Stability	1 year
Viscosity	10 centipoise
Weight per gallon	9.6 lbs.
ACTIVE INGREDIENTS:	
Octyl decyl dimethyl ammonium chloride	0.015%
Dioctyl dimethyl ammonium chloride	0.006%
Didecyl dimethyl ammonium chloride	0.009%
Alkyl (50% C ₁₄ , 40% C ₁₂ , 10% C ₁₆) dimethyl benzyl ammonium chloride	0.020%
Hydrogen Chloride	23.000%

Safety

DANGER: POISON: CORROSIVE: Keep out of reach of children. Causes irreversible eye damage or skin burns. May be fatal if swallowed. Harmful if adsorbed through skin or inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist. Wear safety glasses, goggles, or face shield. Wear protective clothing and rubber gloves. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse. FIRST AID: IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless instructed to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF ON SKIN OR ON CLOTHING: Immediately take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for further treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Directions For Use

Read the entire label before using this product. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. TO CLEAN AND DISINFECT TOILET BOWLS AND URINALS: Remove water from bowl by forcing it over the trap with a swab mop. Saturate swab mop with cleaner/disinfectant and wet all surfaces thoroughly. It is most important to swab under rim of bowl or urinal to clean and disinfect water outlets. Allow cleaner/disinfectant to remain for at least 10 minutes until all rust, scale, and stains are loosened. Rinse by flushing. For heavily soiled areas a preliminary cleaning is required. At a dilution of one part cleaner/disinfectant to 3 parts water, this product has shown broad spectrum activity against microorganisms commonly found in toilet bowls and urinals, and has been evaluated in the presence of 5% serum and found to be effective against the following organisms by the AOAC Use-Dilution test: PSEUDOMONAS AERUGINOSA, SALMONELLA CHOLERAESUIS, STAPHYLOCOCCUS AUREUS. Kills HIV-1 on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings (Hospitals, Nursing Homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS). SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS. PERSONAL PROTECTION: When handling items soiled with blood or body fluids use disposable latex gloves, gowns, masks, or eye coverings. CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product. CONTACT TIME: Allow surface to remain wet for 10 minutes. DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.
